

## PVC Interlocking Panel

Designed to eliminate clutter and provide easy access to essential items, the Kodiak Slatwall interlocking PVC panel instantly adds storage and organization to laundry rooms, art and craft areas, basements, garages, workshops, restaurants, and retail spaces.

The panel's bright, white finish is resistant to moisture, mold, bacteria, and most chemicals. The Kodiak Slatwall system features tongue and groove slat wall panels that interlock together, hiding the fasteners for a smooth, easy-to-clean surface. Power wash or simply wipe down with a soapy sponge and water!

A versatile option for turning any wall into a functional storage space, Kodiak Slatwall PVC panels can be installed in customized configurations — one section, half wall, or complete wall. Kodiak Slatwall is also compatible with standard slatwall accessories, adding a finished, professional look to any project.
