WHY SPEND MONEY ON A ROOF THAT IS GOING TO FAIL?

There is a superior solution that home, cottage and commercial business owners are starting to notice.

Domtek's Pro-Lock Hidden Fastener Metal Roofing will save you money long after the initial purchase.

Striations in Textured Graphite Grey

Say goodbye to the hassle of constantly replacing your roof and hello to Domtek's Pro-Lock Hidden Fastener Metal Roofing. This premium roofing system made from high-quality steel will not only save you money in the long run but will also provide exceptional protection against water, wind, hail, and fire.

DID YOU KNOW...?

- **Pro-Lock is non-flammable**, ensuring the safety of your loved ones. Unlike asphalt or cedar shakes, steel will not ignite if a spark comes in contact with your roof.
- **Pro-Lock is stylish** with a wide range of attractive colors and textured finishes, Pro-Lock is not only durable but stylish too!
- **Pro-Lock is quiet**. When installed over solid decking with an approved synthetic underlayment, metal roofs are as quiet as any other type of traditional roofing system.
- **Pro-Lock is environmentally responsible**. Steel is 100% recyclable and energy efficient, keeping your home cooler during those hot summer months.
