

7/8 Corrugated

METAL ROOFING & CLADDING

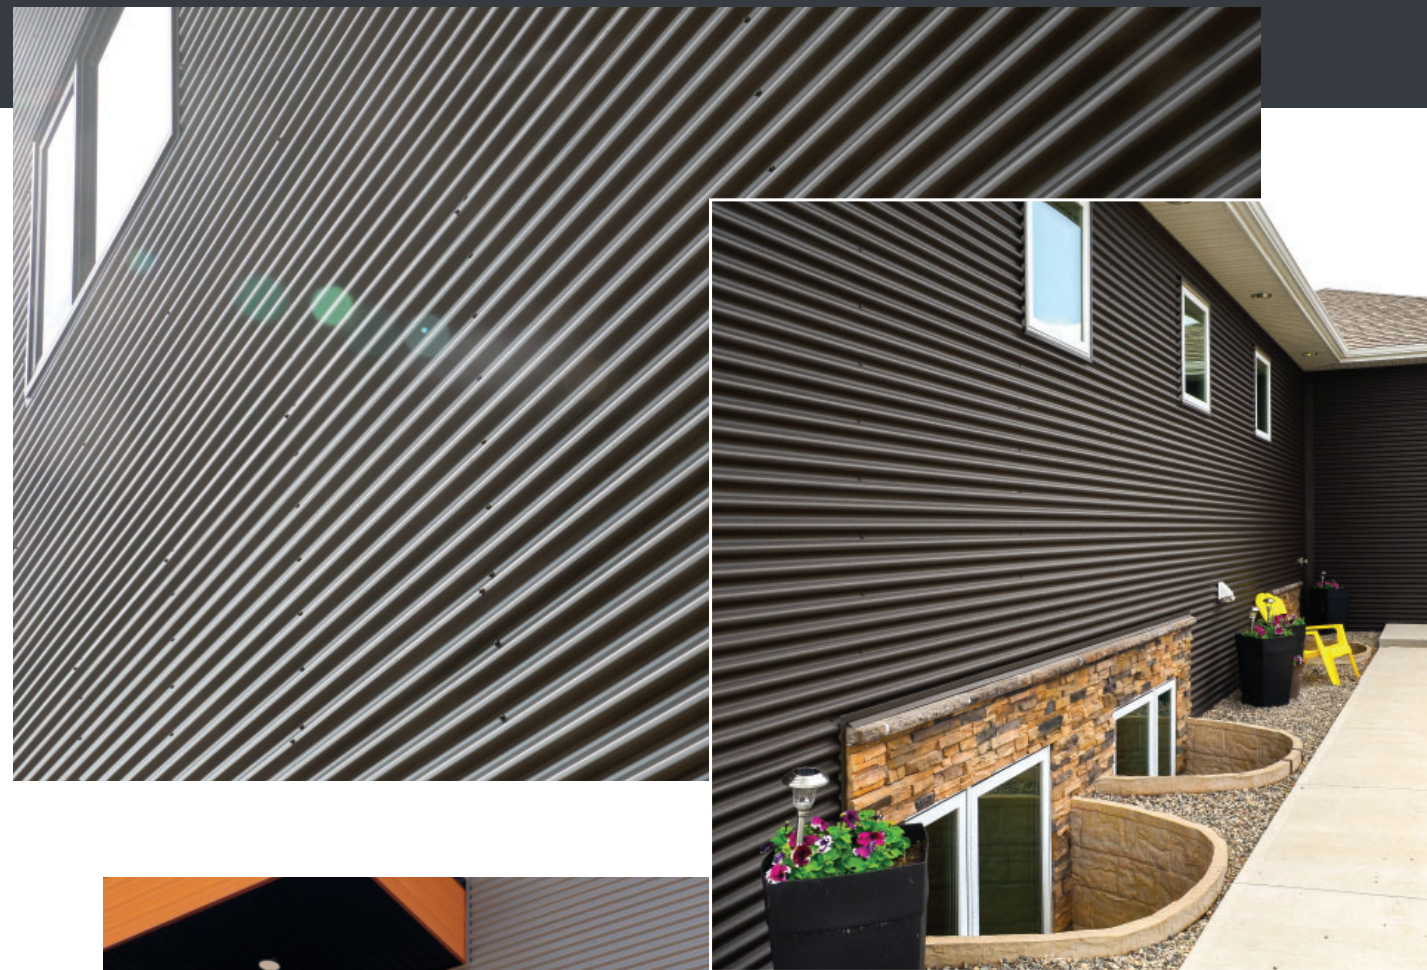

Proudly Made In Canada

DOMTEK
BUILDING PRODUCTS

KNOWN TO PROVIDE EXCEPTIONAL STRENGTH AND DURABILITY, 7/8" CORRUGATED PANELS HAVE A REPEATING WAVE PATTERN THAT OFFERS VISUAL APPEAL TO ANY COMMERCIAL OR RESIDENTIAL PROJECT.

7/8" Corrugated is an excellent choice for exterior siding applications, accent pieces or interior design projects.

Easily installed over solid sheathing or open framing, 7/8" Corrugated can be lapped in a variety of ways, eliminating extra cutting on-site.

Available in a wide variety of colours, 7/8" Corrugated can be used to compliment or match any type of finish or materials in your project.
